

SPILLCON

20 – 24 May 2019
Perth, Australia

AMSA/CSIRO Innovations Technical Seminar

Friday 24 May 2019

8.30am – 12.30pm

Crown Burswood

Insights, Ideas and Innovations

Do you want to be part of a workshop about fresh, new and novel ideas, processes, practices or tools?

We now have a draft program full of world class, eclectic and novel presentations. Participants will get to hear, discuss and debate the new and interesting within their worlds.

Sessions will last around 30 minutes, with plenty of time for discussion, assessment and feedback.

Draft Workshop Program (subject to change)

Session Content	Presenter(s)
Satellite based remote sensing	David Blondeau-Patissier (CSIRO, Brisbane)
AUVs – the future	Andreas Marachous (CSIRO, Brisbane) and Emma Crooke (CSIRO, Perth)
New sorbents	Justin Chalker (Flinders University, Adelaide)
Advances in Dispersants	Tim Nedwed (ExxonMobil, Houston)
Remotely deployed microbial samplers	Pascal Craw (CSIRO, Brisbane)
Advances for the shoreline: Development of a kite surveillance system, and use of kites for tactical surveillance offshore and Improving shoreline assessment (SCAT) data through a mobile digital tool”	Matthew Low (OSRL, Singapore)
Advances in understanding the toxic response of coral to oil	Andrew Negri (AIMS, Townsville)
Legal niceties – not your usual legal brief!	Clinton McKenzie (AMSA, Canberra)
